

To Whom It May Concern,

I am submitting written testimony to support Senate Bill 22. This act that will reduce the rates of sales and use taxes and meals tax, is urgently needed in CT right now. As a middle class family, facing the increasing costs of inflation everywhere, I am astounded at how much I pay for my weekly groceries, gas, and electric bill. I am making the same amount of money, yet my savings are being depleted each week due to inflated prices in CT. It is hard to make ends meet with two parents working full time jobs, and a family of children to support. Passing this bill will greatly and positively impact the financial health of all families across CT. It will lessen the struggles many families are currently facing as prices rise weekly and weekly wages stay the same. Thank you for your time and consideration.
